

NEW

Alka-Max™...Paneltech's newest concrete form withstands the highest alkalinity concrete mixes.

- Does not change color after the pour
- Forms a hard surface with superior abrasion resistance
- Can be applied using standard HDO caul systems

Features:

- ✓ Hard , abrasion resistant surface
- ✓ Masks panel defects
- ✓ Increases alkalinity resistance of concrete form
- ✓ Quality controlled continuously by online weight and volatile sensors, calibrated hourly
- ✓ Each sheet visually inspected
